## SERVICE REPORT

Work Order: WO-257763 | Date: 02/12/2024

### Client Information

Client	Martinez-Anderson
Address	634 Bailey Vista, North Jordanhaven, NM 42982
Phone	2709870388

### Equipment Information

Field	Value
Machine Type	Fryers
Model	CrispKing 300
Serial Number	SN29377071

### Service Details

#### Problem Description

There's this weird smell coming from the fryer that's not the usual cooking smells - it's like something electrical is burning. The smell gets stronger when we turn the heat up high, and I'm worried something dangerous is happening inside the unit. A couple of my cooks have complained about headaches after working near it all day.

#### Solution Applied

Replaced overheating transformer and damaged wiring harness that was causing electrical insulation to burn and emit toxic fumes.

### Parts Used

- SKU-WH-778844 - Main Wiring Harness 12-circuit with heat-resistant coating

## Technician Information

<b>Technician Name</b>	David Chen
<b>Technician ID</b>	TECH-012
<b>Certification</b>	EPA Type I/II Certified
<b>Arrival Time</b>	13:50
<b>Labor Hours</b>	1.48
