

# Professional Food Equipment Co

## SERVICE REPORT

Work Order: WO-989861 | Date: 04/24/2025

### Client Information

Client	Allen, Cortez and Peterson
Address	534 Stout Passage Suite 225, Lake Sarahberg, SC 32250
Phone	2302301627

### Equipment Information

Field	Value
Machine Type	Fryers
Model	DeepFry Pro 450
Serial Number	SN29697300

### Service Details

#### Problem Description

There's this weird smell coming from the fryer that's not the usual cooking smells - it's like something electrical is burning. The smell gets stronger when we turn the heat up high, and I'm worried something dangerous is happening inside the unit. A couple of my cooks have complained about headaches after working near it all day.

#### Solution Applied

Replaced overheating transformer and damaged wiring harness that was causing electrical insulation to burn and emit toxic fumes.

### Parts Used

- SKU-WH-778844 - Main Wiring Harness 12-circuit with heat-resistant coating

## Technician Information

Technician Name	Lisa Martinez
Technician ID	TECH-031
Certification	CFESA Certified Specialist
Arrival Time	19:03
Labor Hours	0.53
