## SERVICE REPORT

Work Order: WO-191827 | Date: 02/17/2025

### Client Information

Client	Torres and Sons
Address	176 Schmitt Dam Apt. 036, Browntown, WA 08068
Phone	+1-897-432-2801x3308

### Equipment Information

Field	Value
Machine Type	Fryers
Model	CrispKing 300
Serial Number	SN23875094

### Service Details

#### Problem Description

There's this weird smell coming from the fryer that's not the usual cooking smells - it's like something electrical is burning. The smell gets stronger when we turn the heat up high, and I'm worried something dangerous is happening inside the unit. A couple of my cooks have complained about headaches after working near it all day.

#### Solution Applied

Replaced overheating transformer and damaged wiring harness that was causing electrical insulation to burn and emit toxic fumes.

### Parts Used

- SKU-WH-778844 - Main Wiring Harness 12-circuit with heat-resistant coating
